- › Digital indicator made of impact resistant plastic
- › One-key operation
- › Units in kg/lb
- › Mains power data: 230V, 50/60Hz, 10mA, 2.3VA
- › Battery power supply for approx. 52 hrs by 4 x 1.5V Mignon cells
- › Auto-Off function in battery power mode

Floor Scale 9028

- › For technical data, see Digital Indicator 2790
- › Approved to EU Class III
- › Digital indicator: sturdy housing made of anodised aluminium alloy
- › Keys for on/off, zero, tare and clear tare
- › Data transfer to printer/IT
- › Counting function
- › Units in kg/lb
- › Mains power data: 230V, 50/60Hz, 60mA, 13.8VA
- › Battery power supply for approx. 40 hrs by 4 x 1.5V Mignon cells
- › Optional: RS 232 data interface

Description of weighing platform

- › Sturdy steel frame, painted
- › Platform made of waterproof bonded laminated wood with plastic top surface
- › Stable at loads up to 3t
- › Platform size: l x w x h 1278 x 1527 x 120mm
- › Load-bearing capability: 2000kg
- › For floor installation

Ordering information

Order Numbers	Digital Indicator	Design	Weighing Range	Divisions	
	Product Number		kg	g	
9027.01.001	2755		600	200g	
9027.02.001	2755		1500	500g	
9028.01.001	2790	without interface	600	up to 300kg = 100g	over 300kg = 200g
9028.02.001	2790	without interface	1500	up to 600kg = 200g	over 600kg = 500g
9028.01.002	2790	with interface	600	up to 300kg = 100g	over 300kg = 200g
9028.02.002	2790	with interface	1500	up to 600kg = 200g	over 600g = 500g
